

Installation & Care Tips for Reusable Vinyl Signs

Our amazing Reusable Vinyl Graphics can be peeled and restuck 100+ times as long as the adhesive stays clean and fresh. The area of the vehicle that your logo is being applied to needs to be dirt free (you can use a rag or towel) before you apply. Some popular methods to keep your graphics clean when not in use include:

- Putting it back on the liner/backing that it was shipped with and roll up with a rubber band
- Stick it to a clean surface such as a garage wall
